15 September 1948

MEMORANDON PORT DIRECTOR OF CENTRAL INTELLIBRACE

VIA

Deputy Mrector

SUBJECT:

15C 19

- L. The implementation of the subject litractive has been discussed with the Resoutive for Inspections and Security and representatives of OSO, OFC considers that the assignment of this middlity to GIA is sound, and that it might wall be to the interest of the to undertake this project, particularly for the
 - a. The project is one of ebvious importance, the implementation of which will reduced to the credit of cil and which should, therefore, be of considerable assistance in justifying appropriations.

b. CIA already conducts certain functions which tie in as essential parts of the contemplated activity, and by undertaking the overall responsibility the GIA will have an opportunity to reinforce its role as a coordinating agency.

The project presents an opportunity to reinferes GLA's position in the field of overseas security

2. The OPC believes that this project is one which should be communication primarily on an overt basis and with the knowledge and comment of the nations concerned - at least in all cases where the governs ante are "friendly" to the United States. The Department of State should to called upon to present the proposal to the foreign governments which are concerned through normal diplomatic charmals and to complete the mecessary agreements with such governments. the covert offices of CIA might supplement the overt activity (380 would participate in the field of counter-espionage). This office is convinced, however, that it would be unnecessary and unwise to attempt the major part of this project as a convince apparation. (30)

consure in the views expressed in this paragraph but dissents from the views expressed in paragraph 1.

J. Finally CFC is convinced that this project does not tie in with its contemplated activities and that its execution by CFC would diwert this Office from its major objectives at the very moment it is beginning to function. For these additional reasons it is believed that this project should not be undertaken by CFC, CFC, however, would like to be closely informed as to the progress, execution, and seculite of this project, in order to determine (a) whether it can or should after covert assistance, and (b) wisther the project develops information which could be utilised in connection with the activities of CFC.

PANK G. WISNER Assistant Rivester for Policy Coordination 25X1

cc: Asst. Director, OSO Executive for I&S
